

Here's how we're keeping you

SAFE

So you can get the healthcare you need. Welcome Back!

Temperature checks for all

Plexiglass and other barriers

Mandatory masking for all

Hand sanitizer

Social distancing

Screening questions

Outpatients seen by appointment,
no indoor waiting

Testing on all inpatients and those
undergoing invasive diagnostic
testing and surgery

Telehealth/telemedicine options

Separate treatment areas in the ER and
patient floor areas for COVID patients

Appropriate PPE for all staff

Infection control training for all staff

HEPA air purifying filters

Positive/negative pressure rooms

Cleaning/sanitizing process

- Disinfecting all surfaces
- Treating all floors with germicidal disinfectant
- Stripping and refinishing all patient rooms and floors
- Surfacide UV-C treatment – the “knockout punch”
